

Doruka Ministries

Sponsorship & Partnership Proposal

Compassion • Dignity • Self-Reliance

Providing education, healthcare and empowerment to transform the lives of Uganda's vulnerable children and families.

MINISTER NAKASIITA JOSEPHINE

FOUNDER & VISIONARY LEADER

A Partnership That Restores Hope

Doruka Ministries invites churches, organisations, foundations and individuals to help vulnerable people move from crisis toward lasting wellbeing.

Our purpose

Founded in 2016, Doruka Ministries is a Christian humanitarian programme operating under the legally registered Theos Transforming Ministries. Doruka's separate registration is planned as its work develops.

Our approach brings together practical care and spiritual formation. We seek to remove barriers to education, strengthen health and nutrition, develop income-generating skills, encourage stable family environments and help each person grow in dignity and hope.

01

The need

Doruka has supported 150 boys and girls over time. Fifty remain under the programme, while 20 currently receive active assistance because available funding has reduced.

02

The response

Targeted sponsorship, family-centred support, education, vocational development, mentorship, healthcare and community partnership across Rakai, Kampala, Iganga and Buyende.

03

The invitation

Partners may contribute through prayer, professional expertise, programme sponsorship, resources, infrastructure and accountable financial support.

A Message from the Visionary

Minister Nakasiita Josephine carries direct responsibility for Doruka's vision and partnership relationships.

“Every child deserves belonging, care and opportunity.”

Doruka Ministries was established from a conviction that vulnerable children should not be defined by loss, poverty or circumstance. We desire to see children educated, nourished, protected, spiritually grounded and equipped for independent, purposeful lives.

Our compassion also extends to vulnerable women, teenage mothers, widows and young people who need skills, mentoring and practical pathways toward stability. We warmly invite responsible partners to walk with us as we strengthen programmes, improve accountability and expand sustainable support.

Partnership with Doruka is not simply a donation. It is an investment in dignity, family, education, faith and a future of self-reliance.

Vision, Mission & Objectives

A clear framework for compassionate service and sustainable transformation.

V

VISION

Vulnerable children and families living with dignity, belonging, spiritual strength and the practical capacity to build secure and hopeful futures.

M

MISSION

To provide holistic, accountable and family-centred support through education, healthcare, nutrition, shelter, spiritual growth, vocational development, mentorship and livelihood opportunities.

Strategic objectives

1

Increase access to quality education and essential learning materials.

2

Improve health, nutrition, sanitation and personal wellbeing.

3

Strengthen family-based care, protection and a sense of belonging.

4

Equip women and youth with practical, income-generating skills.

5

Build transparent partnerships that create measurable, lasting impact.

The Need We Address

Doruka responds to interconnected barriers that prevent vulnerable people from thriving.

01

Interrupted Education

School fees, uniforms, supplies and domestic hardship can push children out of school.

02

Health & Nutrition

Limited access to nutritious food, medical attention, clean water and hygiene education affects development.

03

Unsafe or Unstable Care

Orphanhood and family crisis can leave children without consistent protection, affection and guidance.

04

Limited Livelihoods

Women and youth may lack vocational skills, mentorship, tools and opportunities to earn sustainable income.

05

Loss of Hope

Trauma, exclusion and poverty can weaken confidence, identity, faith and a sense of future purpose.

Doruka's response begins with responsible assessment. Support should follow verified need, safeguarding requirements, available resources and a documented plan for each programme.

What We Seek to Deliver

Programmes are developed according to verified community needs, available resources and responsible implementation capacity.

01

Education Sponsorship

School fees, learning materials, uniforms, mentoring and follow-up intended to improve enrolment, attendance, progression and completion.

02

Health, Nutrition & Hygiene

Basic healthcare support, medical referrals, wholesome food, clean water, sanitation education and age-appropriate health awareness.

03

Family-Based Care

A caring environment that prioritises belonging, protection, stability, education, healthcare and spiritual growth over institutional isolation.

04

Skills & Livelihoods

Vocational training, mentorship and practical income-generating opportunities for youth, teenage mothers, widows and vulnerable women.

05

Spiritual Growth & Mentorship

Biblical teaching, prayer, character development, life skills and responsible adult guidance that nurture hope and purpose.

The Family-Home Vision

Doruka believes children thrive best in safe, loving and accountable family environments.

Belonging before buildings

The long-term family-home and skilling-centre concept is planned for approximately half an acre in Lubimba Village, Kiweeka Parish, Lwamaggwa, Rakai District. The land is owned by the vision bearer and is available for donation to support the project.

Principles of family-centred care

01

Safety

Every placement and activity must protect children from harm, exploitation and inappropriate exposure.

02

Belonging

Children need stable relationships, affection, identity and meaningful participation in family and community life.

03

Development

Education, health, life skills, faith and emotional wellbeing are treated as connected needs.

04

Self-Reliance

Age-appropriate responsibilities and practical skills prepare young people for independent adulthood.

The proposed 3,000-square-foot centre remains subject to land transfer, design, approvals, safeguarding, staffing and professional oversight.

Partnership Opportunities

Support may be tailored to the partner's priorities, capacity and due-diligence requirements.

01

Child Education Partner

Support verified education costs and receive appropriate, privacy-respecting progress updates.

02

Health & Nutrition Partner

Help strengthen medical access, nutrition, hygiene and clean-water initiatives.

03

Skills & Livelihood Partner

Support training, tools, mentorship and pathways toward sustainable household income.

04

Family-Care & Infrastructure Partner

Contribute to safe facilities, equipment and professionally planned family-based care.

05

Technical or Volunteer Partner

Offer professional expertise in education, health, safeguarding, finance, governance, communications or monitoring.

06

Prayer & Church Partner

Stand with the ministry through prayer, advocacy, mission relationships and responsible mobilisation.

How Partnership Works

A simple, documented process protects beneficiaries, partners and the ministry.

1. Conversation

Clarify the partner's interest, expectations, values and preferred area of support.

2. Due Diligence

Share available organisational, leadership, programme and financial documentation.

3. Agreed Scope

Define activities, beneficiaries, budget, timeline, responsibilities and reporting terms.

4. Implementation

Deliver approved activities using documented controls, safeguarding and responsible procurement.

5. Reporting

Provide narrative and financial reports, appropriate evidence, outcomes, challenges and next actions.

6. Review & Renewal

Evaluate results together and decide whether to close, improve, scale or renew the partnership.

Monitoring Our Impact

Doruka will report what was planned, what was delivered, what changed and what must improve.

01

Education

Children enrolled; attendance maintained; fees and materials delivered; progression or completion recorded.

02

Health & Nutrition

Health referrals completed; nutrition or hygiene support delivered; follow-up needs recorded.

03

Protection & Wellbeing

Safeguarding concerns documented and addressed; care plans reviewed; participation and wellbeing observed.

04

Skills & Livelihoods

Participants trained; courses completed; tools provided; income activity started or strengthened.

05

Partnership Accountability

Funds received; approved spending; supporting documents; activity reports; challenges and corrective actions.

Final indicators, targets and reporting frequency will be agreed in writing for each partnership. Doruka will not publish a beneficiary's identity or sensitive story without appropriate consent and protection review.

Safeguarding & Accountability

Trust is built through clear responsibility, documented controls and honest reporting.

01

Child Safeguarding

Prioritise safety, dignity, consent, confidentiality and appropriate conduct in all child-related activity.

02

Financial Integrity

Use approved budgets, receipts, authorisation, reconciliation and partner reporting for restricted support.

03

Fair Beneficiary Selection

Use documented vulnerability criteria and avoid discrimination, favouritism or exploitation.

04

Privacy & Communications

Protect personal information and use photographs or testimonies only with suitable consent.

05

Complaints & Response

Provide a safe route for beneficiaries, staff and partners to raise concerns and receive follow-up.

06

Learning & Correction

Record challenges, investigate exceptions and implement corrective action instead of concealing problems.

Let Us Build Hope Together

Doruka Ministries welcomes responsible partners who believe that compassion should protect dignity, strengthen families and create pathways toward self-reliance.
